MENSWEAR

Nº TWO

THE STORY

Are we seeing the Downfall of traditional Corporate shirtmaking? Maybe not, but we are here to push things in the right direction. One shirt at a time.

With over 20 years of experience in the garment industry, 10 of them within corporate shirtmaking, and 15 years of sales experience, DJ'ing and modeling we were ready to rebel against the mindless overproduction and make a small difference. Convinced that this could be a "before and after" moment, we rolled up our shirtsleeves. And Boom!

REBELOUP was born in 2022.

Driven by an impatience with established brands, old ways, and wasteful fashion, we harness cutting-edge tech to challenge the fashion industry and transform the way we consume clothing - both as people and planet.

Due to limited size ranges, bulk production without demand certainty, and a high rate of returns due to poor fit and low quality, the fashion industry keep producing ready-to-waste in mind-boggling quantities!

Rebeloup's mission is to disrupt the industry's conventional methods, and the outdated practices that make it the second most polluting industry globally. We embrace cutting-edge tech to make a positive change and by operating according to the made-to-order principle. We therefore only create exactly what is ordered by you, minimizing waste and eliminating overproduction.

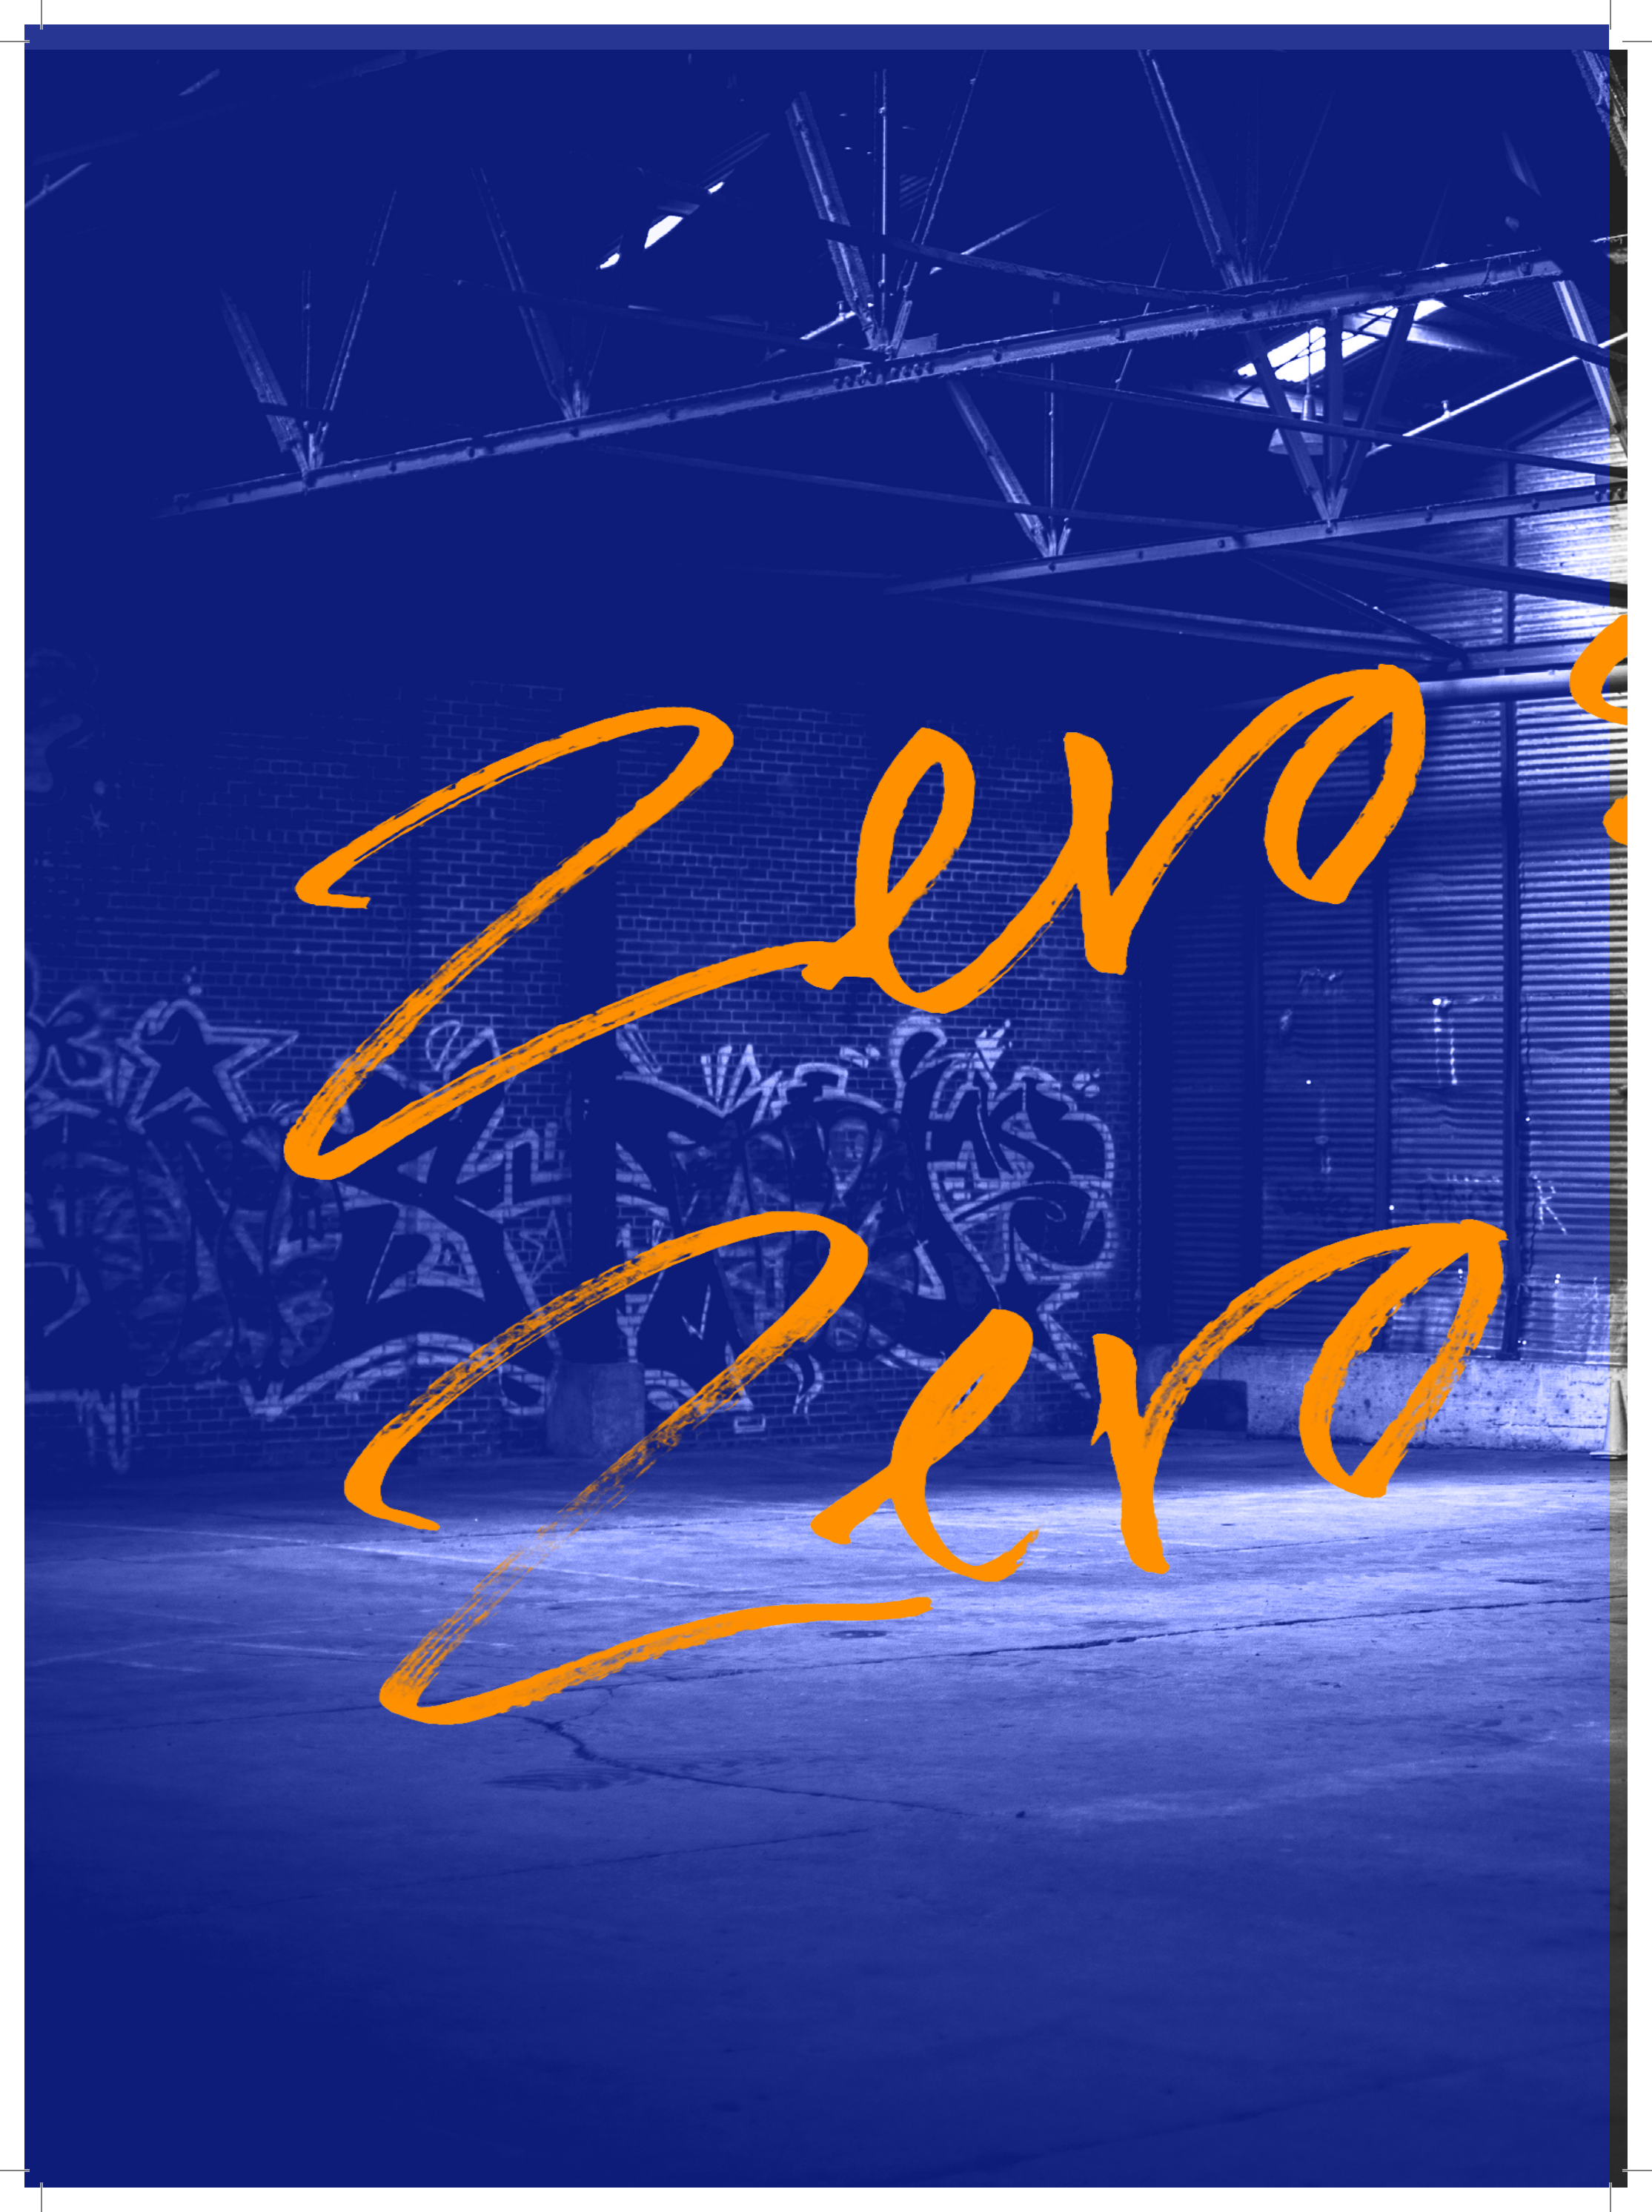

Unless you order it, we don't make it! One of a Kind. One at a time.

So don't be a wasting fashion robot!

ELEGANCE

EXTRA LONG STAPLE COTTON

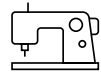

Our Elegance shirts are crafted with extra long staple cotton (ELS), the cream of the crop in cotton world. These fibers are like the MVPs of softness, durability, and shine. Only 3% of the cotton harvest meets the mark because ELS fibers gotta be at least 34.925 mm long – Pretty impressive, right?

So, what's the deal? Well, our shirts are seriously comfy, thanks to those long fibres that feel amazing against your skin. And they're tough cookies too, built to last through whatever life throws your way. Plus, that natural luster adds a touch of class to your look. So if you want quality that's as cool as it is reliable, Rebeloup is for U.
